Forecast for Wednesday 22 Nov 2023

Weather: Cloudy through the early hours with outbreaks of rain and drizzle, and extensive hill fog, developing by dawn. Then a dull morning with further outbreaks of rain and drizzle, these becoming confined to western hills by early afternoon with some brighter spells developing in the east. Then rather cloudy through the evening with, especially across western hills, patchy light rain and drizzle

Chance of cloud-free hill tops above 600m: Around 25% for most through the morning, improving to 40% in west and 75% in east by early afternoon.

Low Cloud and visibility: Periods or persistent cloud above 600-750m lowering, especially over western hills, to 450m at times in precipitation, cloud becoming, especially in east, more occasional above 600-750m during the afternoon. Away from cloud visibility good becoming several kilometres in rain and drizzle.

Forecast for Thursday 23 Nov 2023

Weather: Cloudy through much of the morning with further outbreaks of rain and drizzle, these becoming more persistent and perhaps occasionally heavy around the middle of the day. Turning brighter, and colder, in the afternoon and evening with a few light showers.

Maximum wind: Westerly 30-40mph, gusts increasing to around 60mph through the morning over ridges and summits, winds then turning more northwesterly in the afternoon and gradually easing 25-30mph.

Chance of cloud-free hill tops above 600m: Similar to Wednesday, around 25% for most through the morning, improving to 90% in the afternoon.

Low Cloud and visibility: Periods or persistent cloud above 600-750m lowering, especially over western hills, to 450m at times in precipitation, cloud becoming more occasional above 750m during the afternoon. Away from cloud visibility several kilometres in rain and drizzle becoming good or very good in the afternoon with brief reductions in any showers.

Temperature: **Valleys:** Around plus 10 Celsius rising to plus 13 Celsius through the morning, falling to plus 5 or 6 Celsius by the end of the afternoon.
At 600m: Plus 7 Celsius falling to plus 2 or 3 Celsius through the late afternoon and evening.
Freezing level: Above summits, but falling through the late afternoon and evening.
